

SACXS 2020

March Meeting

Before the Show and Sale, Let's Show and Tell!

The March meeting is historically a split program, with the second half of the meeting dedicated to the upcoming Show and Sale in April. Here are the two elements:

Part One: This month, YOU are the featured presentation. YES, we want to see your favorite xerophyte. Bring in your favorite cactus or succulent, or just one that you find really interesting to share with the group. It doesn't need to be in a fancy pot, just be prepared to let the group admire it while you tell us a few things about it. It could be something very scientific, or something very basic. It's just all about showing and telling.

Which will lead us to Part Two: Our 42nd Annual Show and Sale Prep.

You'll want to stick around to see all the fun that's planned for April 23-25. You'll also have the opportunity to sign up to volunteer. And don't leave early, because we will end the night with our monthly auction and raffles.

Jimmy and Ann Black will be selling plants in the back of the meeting room prior and after the meeting as well. Mandy Bulmer, VP of programs.

Check this out:
Here is one of my favorite Aloe hybrids called 'Christmas Sleigh' that I'll bring to the meeting to kick start the program.

Mandy Bulmer,
V.P. Programs

March Auction Plant Assignments

- Kate Martin
- Janet McCarthy
- Patricia Merk
- Michelle Morales
- Pat Murphy

Dear Members:
Please bring raffle plants to the meeting. Proceeds from the auction and raffle ticket sales help us pay for the meeting space rental fee.
